EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Muncy on 03/03/05.

The application has been amended as follows:

Claims 1-30 have been cancelled.

In the specification, at page 32, line 18, replace "IC chip 27" with --IC chip 22--.

Replace the title with --Cooling fin connected to a cooling unit and a pusher of the testing apparatus--.

Allowable Subject Matter

Claims 31-37 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: No prior art has been found that includes the limitations of claims 31-36 calling for a device tester comprising a cooling fin, the cooling fin being attached to a sidewall of the pusher and being connected to the cooling unit as further defined at claim 31.

Claim 31 is allowable. Accordingly, dependent claim 37, directed to the non-elected species is no longer withdrawn from consideration since all of the claims to the species depend from or otherwise include each of the limitations of an allowed claim.

Art Unit: 2829

Therefore, claim 37 is now being rejoined and fully examined for patentability under 37 CFR 1.104.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

 Applicant's arguments, see ^{pages 14-15} ~~page 13-14~~, filed 12/15/2004, with respect to amended claims 31-36 have been fully considered. Arguments regarding claims 1 and 4-8 are moot because they are cancelled.
